

PragmaDev to assign Pitotech as taiwanese distributor.

Paris - France - November 24th, 2003 - *PragmaDev* has assigned Pitotech as a taiwanese distributor of *Real Time Developer Studio* and *MSC Tracer*, *PragmaDev* set of tools for the development of real time and embedded software.

Real Time Developer Studio and *MSC Tracer* are based on SDL-RT graphical representations of traditional concepts used in the real time domain without leaving behind legacy code and years of experience. *Real Time Developer Studio* can generate full application code out of SDL-RT design embedding RTOS system primitives. The connection with cross-debuggers allows graphical debugging in the SDL-RT diagrams and at C level, as well as graphical traces based on MSC diagrams, of code running on target.

Pitotech is a leading technology provider, offering a wide variety of software products, trainings, and consulting since 1992.

About PragmaDev

PragmaDev is a privately held company based in Paris France that provides a set of tools for the development of real time and embedded software: *Real Time Developer Studio*.

Real Time Developer Studio technology was one of the winners of the 2001 edition of the national competition on innovative technologies organized by the French ministry of research.

PragmaDev is an Altium, Atos Origin, CMX Systems, OSE, OSS Nokalva, Mentor Graphics, Sun Microsystems and Wind River Systems active partner.

About SDL-RT

SDL-RT (Specification and Description Language - Real Time) is the real time extension to well known SDL (Specification and Description Language) standardized by ITU (International Telecommunication Union). It introduces the missing concepts in SDL such as semaphores manipulations and embedded C language gathering the original languages benefits:

- **Graphical representations**
- **Object orientation**
- **Precision**

Version 2.0 introduces UML (Unified Modeling Language) support.

SDL-RT is free and available on <http://www.sdl-rt.org>.

About Pitotech.

Pitotech is a leading technology provider, offering a wide range of software product , trainings, and consulting specialized in educational, research and simulation applications. Our experienced engineers and consultants deliver high quality solutions and service to fulfill our customers' requirements.

In the stormy business environment it is vitale to be competitive and make the right decision. Pitotech offers a comprehensive array of solutions to increase profits, efficiency and enhance core competence.

Pitotech is established since 1992 and is very successful to attract and retain professional manpower and keep highly satisfied customers by providing excellent support and service.

Pitotech always pursue long-term and tight relationships with customers and partners. Our Vision is to be a knowledge provider, not only a product distributor.
